

Md. Fahim Rahman

Junior Software Engineer

Dhaka, Bangladesh | +880 1939-821774 | mdfahimrahman7185@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated Computer Science graduate (BSc CSE, AIUB, CGPA 3.52) with hands-on, full-stack experience across React.js, Node.js, ASP.NET Core, TypeScript, and SQL Server/PostgreSQL. Comfortable building and testing RESTful APIs (Postman, JSON, HTTP) and working across the frontend and backend of an application. Seeking a Junior Software Engineer role to contribute to problem solving, API development, and quality software delivery.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE) — *American International University-Bangladesh (AIUB), Dhaka* — 2026

CGPA: 3.52 / 4.00

Higher Secondary Certificate (H.S.C.), Science — *Govt. Shah Sultan College, Bogura* — 2020

GPA: 5.00 / 5.00

Secondary School Certificate (S.S.C.), Science — *Sukhanpukur High School, Sonatola, Bogura* — 2017

GPA: 5.00 / 5.00

TECHNICAL SKILLS

Frontend Development: React.js, TypeScript, Bootstrap 5, UI/UX Design

Backend Development: ASP.NET Core, C#, Entity Framework, Node.js, REST API, JWT

Database Management: PostgreSQL, SQL Server, SQL Server Management Studio (SSMS)

Technical Concepts: RESTful API, JWT Authentication, CRUD Operations, File I/O, Database Integration

Tools & Environments: Visual Studio, Visual Studio Code, Git, Postman

Soft Skills: Problem Solving, Effective Communication & Team Collaboration, Quick Learning Ability and Adaptability to New Technologies

PROJECTS

Task Management System | [Github Link](#)

— *React.js, Node.js, TypeScript, REST API, JWT*

- Developed a full-stack task management application with authentication and CRUD functionality.
- Built a responsive UI with React.js and integrated backend services using Node.js and TypeScript.

Cravix Restaurant Management System | [Github Link](#)

— *ASP.NET Core, Bootstrap 5, Entity Framework, SQL Server*

- Developed a web-based restaurant management system with menu, order, and customer management features.
- Implemented CRUD operations with ASP.NET Core and SQL Server database integration.

Food Court Official Management System | [Github Link](#)

— *Java, OOP, Interface Design*

- Developed a food court management system in Java using OOP principles with modular classes and interfaces for managing food items, employees, restaurants, and operations.

RESEARCH EXPERIENCE

Blockchain-based Micropayments System — *Accepted, I.J. Information Engineering and Electronic Business*

- Researched design and implementation of a secure, scalable blockchain micropayments system as part of a 4-member team supervised by Professor Dr. Dip Nandi, Associate Dean, Faculty of Science and Technology, AIUB.
- Explored decentralized transaction models to reduce fees and latency for small payments.
- Analyzed consensus algorithms and smart contract frameworks suitable for micropayment applications; investigated use cases in digital content monetization and IoT device transactions.

CERTIFICATIONS

- Skill Development Program Certification, Ferotech Ltd. (2026) — Professional training in ASP.NET Core and Bootstrap; foundational web application development and responsive UI design.
- Generative AI Literacy (SkillQuest), Simplilearn SkillUp (Aug 2026) — Credential ID: 38019929

LANGUAGES

Fluent in English and Bengali (spoken and written).
